

Cloud Assist Security Foundations

Traditional security solutions are no longer a viable option to protect your company's data from malicious attacks. Hackers and cyber criminals have developed an entire industry dedicated to stealing your data, and it is becoming more sophisticated than ever. With our Cloud Assist Security Foundations bundle, we not only help protect your company from malicious attacks, but prevent these attacks from happening in the first place.

CYBER THREATS TO YOUR COMPANY

50%

of organizations have been hit with ransomware in 2016.

\$209

 MILLION

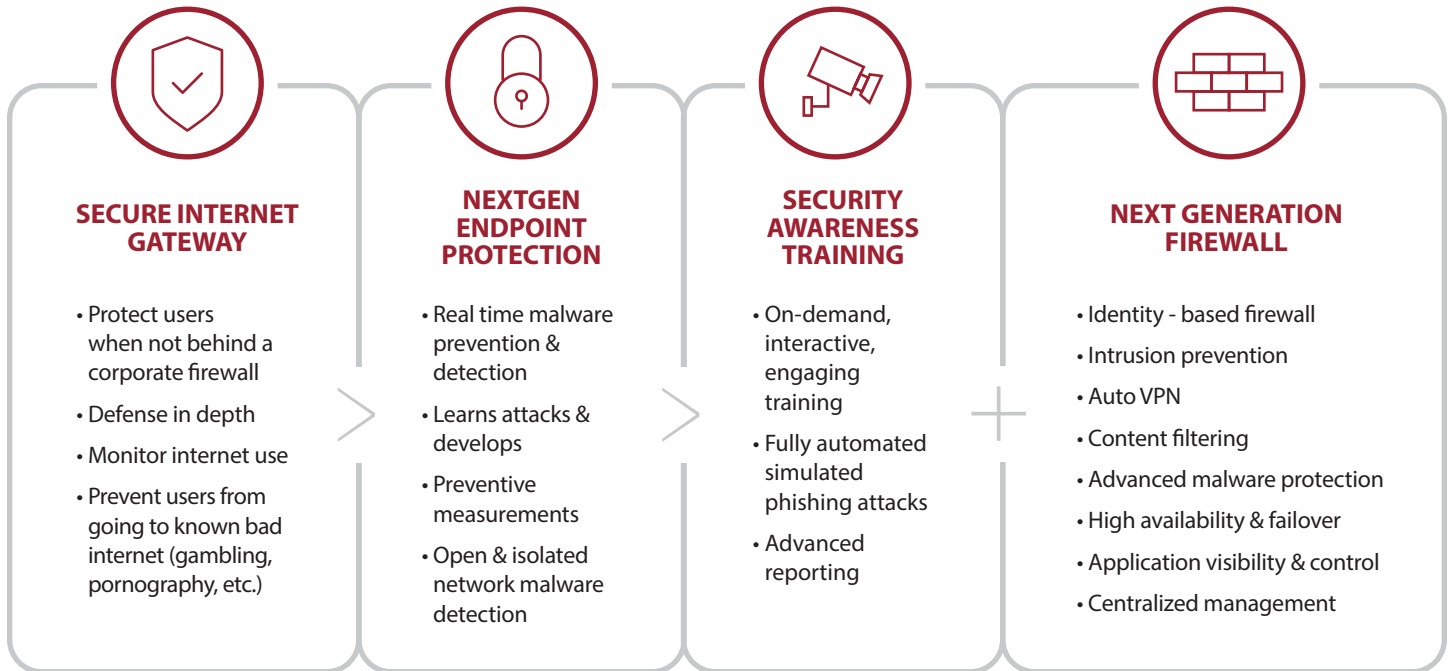

has been paid to cybercriminals in Q1 of 2016.

LESS THAN

50%

of victims fully recover their data, even after backup.
