Commercial Cloud Hosting Services for the Department of the Navy

Highly-Secure Hosted Cloud Services

Capabilities

- Hosted Cloud Infrastructure as a Service
- Secure Shared Services Virtual Environment
- Cloud Assured Managed Services (CAMS)
  - Monitoring and Notification
  - SLA Management
  - Incident Response
  - OS Patch Management
  - Antivirus Management
  - Boundary Management
  - Log Aggregation
  - Backup
- Service Management
- Capacity Planning Insights
- Performance Analysis Data
- Monitoring/Alerts
- Patching
- Security Management
- Support Services Documentation
- Accreditation Prep
- Billing Management
- Technical Account Management
- Training

Key Benefits

- Access Hosted Commercial IaaS
- Increase Visibility to Control Costs
- Maintain Service-Levels and Compliance

Red River

Red River is the U.S. Navy's Cloud Hosting industry partner

Red River moves the U.S. Navy's Data Center Consolidation and "Cloud- First" mandate forward with a dedicated commercial cloud hosting task order for Department of the Navy Mission Owners. Red River has been early to deliver services for transition and new accounts with already over 500 hosted web pages.

Leverage Secure Commercial Cloud

Through a SPAWAR issued, dedicated DCAO task order tied to Red River's NITAAC CIO-CS GWAC contract, Red River provides direct access for Department of Navy Mission Owners to purchase standardized commercial cloud hosting services in a secure environment.

Utilizing Amazon Web Services (AWS) GovCloud for commodity compute, storage and network capacity, Red River stands up secure, FEDRAMP and "FEDRAMP+" compliant services specifically to meet stringent Department of Defense security requirements. The Red River team includes cloud experts Smartronix and Stigian to deliver services and security support for the Shared Services Virtual Environment (SSVE).

A secure "self-service" portal will simplify service ordering and provide visibility into actual usage, foundational managed services, patch management and performance metrics.

Cloud, Security & Compliance Experts

Red River has over 20 years of IT experience, dedicated Cloud, Security and Compliance Practices, and proven expertise establishing and managing secure cloud environments for highly-regulated government and commercial entities.

THE SERVICES & EXPERTISE TO DO MORE

With Red River Cloud for Government IaaS-DoD Edition, you can:

Move to Cloud Faster with Far Less Risk: Red River provides a robust IaaS environment supporting Impact Levels 2 & 4. So, you can transition your data, users, applications and workflows into a Navy compliant, prepared, and pre-configured environment quickly and with much less risk.

Expand Capabilities: Use the SSVE for development and testing, new workloads, video streaming, collaboration, analytics and more.

Move Applications & Data Safely: Our architects work with you to select and on-board high-priority workloads up to IL4, applications and entire data sets to the cloud.

Empower Advanced Insight: See and manage exactly what you're using, stay on top of incidents and request, and easily make requests for services and/or changes to your managed environment through a secure portal.

Leverage Compliance-Ready Cloud: Red River's standardized deployments provide a compliance-ready approach to Cloud. Navy customers can leverage the SSVE with a pre-approved suite of tools and services to start off on the right foot for compliance. Our team has assisted customers with FedRAMP, SOC 2 and DoD compliance.

TECHNOLOGY DECISIONS AREN'T BLACK AND WHITE. **THINK RED.**

Contract Details

The Data Center and Application Optimization (DCAO) Commercial Hosting Services Agreement for Navy Data Center and Application Optimization leverages Red River's NITAAC Chief Information Officer – Commodity Solutions (CIO-CS) Contract to lower costs and streamline purchasing for Cloud Services.

- DCAO Task Order Number: N00039-16-F-0024
- NITAAC CIO-CS Contract Number: HHSN316201500065W

Red River is ISO 9001:2015 certified.

About Red River

Red River brings together the ideal combination of talent, partners and products to disrupt the status quo in technology and drive success for business and government in ways previously unattainable. Red River serves organizations well beyond traditional technology integration, bringing more than 20 years of experience and mission-critical expertise in security, networking, analytics, collaboration, mobility and cloud solutions.
