

# RED RIVER MANAGED SECURITY POWERED BY CISCO MERAKI

Securing your environment can be difficult - we make it easy. From beginning to end, our Managed Meraki Security solution is designed to guide clients through a set process of Planning, Deployment and Management. Throughout this process we focus on creating a secure solution that provides visibility and actionable insight. The Red River Managed Meraki Security solution allows us to take care of the daily challenges, so you don't have to.

## MANAGED SECURITY PROCESS

- STEP 1: ASSESS**  
Our team of experienced and certified architects and engineers will hold design discussions regarding your organization's current state – network, security, applications and users; and create a tailored security solution.
- STEP 2: DEPLOY**  
After working with all your stakeholders to finalize a migration plan, we will seamlessly migrate your organization to the Managed Meraki Security solution.
- STEP 3: MANAGE**  
Red River's Managed Services offer end-to-end support, including: ongoing governance, policy management, capacity and resource planning, monitoring, patching, security, identity management and introduction of new services and features.

## MANAGED SERVICES CAPABILITIES

Red River Managed Services offers 24x7x365 support and operations services to our customers. Whether you're looking to migrate to the cloud, need a reliable security solution, or ongoing help desk support, Red River Managed Services has the experience to address your needs.
