

TAKE SUPPLY CHAIN & LOGISTICS FROM *CHALLENGE TO ADVANTAGE*

From your everyday needs to the most complex requirements, Red River offers customized and secure logistics, integration and configuration services to support your mission at every step. Our extensive track record of just-in-time delivery reduces your overall operating costs and gives you the peace of mind to run mission critical projects with confidence. Through our data-driven processes, we implement secure supply chain management best practices that are **repeatable, scalable and sustainable**.

Red River's experienced team consistently designs, builds, tests and deploys fully integrated custom solutions that are on-time, on-budget and secure.

WITH RED RIVER YOU CAN EXPECT:

ACCURATE PROJECT PLANNING

All aspects of your project delivery are critical, which is why our experienced logistics and engineering personnel work with you to properly scope the requirements, anticipate your needs and reduce delays. This exercise enables us to provide an accurate detailed analysis that addresses cost-effective configuration, integration, packaging and delivery requirements.

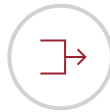

COMPLETE LIFECYCLE MANAGEMENT

Our dedicated order management team will proactively communicate regular status updates throughout the lifecycle of your project to ensure every requirement is met and is delivered on-time.

WE SPEAK LOGISTICS. HOW SUPPLY CHAIN BECOMES A MISSION ADVANTAGE WITH RED RIVER.

Scale and streamline shipments by getting your pre-imaged, configured, multi-vendor solutions to you on-time and ready to deploy.

Simplify the complexity of large, multi-site, multi-configuration roll-outs with centralized management and deployment from Red River -- saving you money and time.

Secure supply chain gives you the confidence that both your digital and physical assets are being sourced and managed by trusted vendors and specially-trained staffing who understand your requirements and operate in secure integration facilities.

Just in time delivery of pre-positioned inventory is made possible through our extensive network of global partners that provide more flexibility and confidence in meeting project deadlines.

Environmental sustainability is a priority with our network of trusted vendors, ensuring you get products and services in alignment with your organization's environmental goals.

Digital transformation is realized by always having information right at your fingertips to analyze, act, and make informed decisions that improve operational performance.
