

EMPOWERING MISSION SUCCESS WITH XAAS

Government IT organizations face complex modernization challenges, from maintaining secure and compliant systems to optimizing costs and scaling infrastructure. Red River's XaaS (Everything as-a-Service) model delivers a flexible, scalable solution to overcome these hurdles and drive mission outcomes.

XaaS Offerings Designed for Government Agencies

Red River XaaS provides a subscription model for IT solutions, tailored to each customer's preferences or requirements for OEMs/features/functions, practice areas and even outcomes. It can be leveraged across data center locations that are on-prem or co-located and provides access to managed or on-demand professional services, depending on the need. Red River offers a range of service levels that span a continuum, allowing organizations to choose the level of support they require to achieve mission outcomes.

Key Benefits of XaaS

- **Flexible Scalability:** Adapt resources on demand with a subscription-based model.
- **Cost Optimization:** Avoid overcapacity and underutilization, eliminating wasted spending.
- **Streamlined Acquisition:** Reduce lengthy procurement cycles from months to weeks.
- **Mission Readiness:** Access cutting-edge technology without large capital investments.
- **Enhanced Security & Compliance:** Meet federal mandates with proactive measures and evergreen technology.

Technology-as-a-Service (TaaS)

Access modern IT infrastructure and software without the burden of ownership. Adapt and innovate with secure, scalable solutions for cloud computing, cybersecurity and more.

- Simplifies IT access through scalable, vendor-neutral subscription models
- Supports hybrid cloud environments, data center modernization, and advanced cybersecurity
- Reduces downtime and improve cost efficiency through proactive maintenance and updates

Lifecycle Management

Comprehensive asset management, from procurement to secure disposal, ensuring maximum value and compliance.

- Provides end-to-end asset management, from procurement to secure disposal
- Ensures license and support contracts remain current, optimizing technology investments

Managed Outcomes

Achieve mission-aligned outcomes with full-service IT operations management tailored to your needs.

- Offers full-service IT support aligned with mission objectives
- Enables agencies to focus on critical tasks while Red River manages IT operations
- Includes flexible capacity scaling and cost-effective support solutions

Proven Impact for Federal Agencies

Red River's XaaS model is designed for adaptability and mission alignment:

- **Hybrid Multi-Cloud Transitions:** Get secure, scalable infrastructure for data-driven initiatives.
- **Data Center Optimization:** Upgrade aging systems with minimal disruption.
- **Enhanced Cybersecurity:** Maintain compliance while reducing costs and improving resilience.
- **Disaster Recovery:** Ensure operational continuity with reliable recovery solutions.

THE RED RIVER DIFFERENCE

With over 25 years of experience in IT innovation, Red River offers unmatched expertise and support:

- + **Expansive OEM Network:** Access the latest technology with preferred pricing and seamless integration.
- + **Streamlined Procurement:** Simplify acquisition with a robust portfolio of contracting vehicles.
- + **Expert Support:** Gain 24/7 technical assistance and proactive IT management.
- + **Future-Ready Solutions:** Leverage AI, cloud, and cybersecurity technologies to stay ahead of evolving demands.
- + **Secure Supply Chain:** Prevent supply chain issues with our proven processes, ensuring a secure supply chain from warehousing to every aspect of logistics.
- + **Deep Engineering Expertise:** Our team solves complex challenges, bringing the technical acumen to architect and deploy the right combination of technologies for optimal results.
