Period of Performance: Mar 2023 – Mar 2028

Ceiling: \$99M

RDT&E and O&M Funds Accepted

REMIEL SCOPE

ACT3 REMIEL follows ACT2 and OSCER work to provide rapid cyber acquisition to further the research, development, enhancement, integration, and transition of cyber technology across varying entities of the USG and coalition forces to continue current efforts pursuing a state of technical normality across operations and increasing the ability of the United States to more efficiently conduct cyber operations, cross discipline operations (e.g. cyber-kinetic operations), and cross domain operations (air, land, sea, space, and cyberspace). Each of the mission areas below are covered in the ACT3 SOW.

- Cyber Threat Avoidance and Cyber Defense
- Full Spectrum Cyber Operations
- Cyber Network Exploitation
- Cyber Situational and Mission Awareness
- Cyber Command and Control
- Cyber Modeling, Simulation, and War Gaming
- Cyber Infrastructure
- Cyber Mission Assurance

REMIEL efforts are further focused to:

1. Development, enhancement, and implementation of cyber defense capabilities on classified DoD networks.
2. Development, enhancement, and fielding of cyber operations training environments.
3. Development, enhancement, and piloting of effects based Cyber Operations
